FOR IMMEDIATE RELEASE

## NETeDEALS' BETA OPEN FOR MERCHANT PARTICIPATION Accepting Merchant Web Sites Sign Up

NETeDEALS.com is pleased to announce it's accepting BETA applicants for the new on line shopping portal. Merchants can sign up here: <http://www.netedeals.com/merchant-sign-up.php>

NETeDEALS.com is letting merchant websites sign up to participate in it's advertising program. During the beta period, accounts will be free and the merchant websites will enjoy a link to their website. Sign up takes less than one minute, and their link will be added to the shopping directory. Afterward, the merchant will be informed of new ways to promote their products as new features are released. Soon, there will be many more features like product data feeds click-stats and some new ideas not yet introduced to the industry. There's no set deadline to end the BETA period but it's at least many months to a year until it's developed enough to the point of full release.

NETeDEALS.com is a shopping portal project being developed by Internet store web masters specifically for the purpose of driving targeted traffic to shopping sites. The goal is to funnel more traffic, to our partnered site and to track checkout conversions with a feature rich administration environment.

Shoppers will also enjoy new features they haven't yet seen on other shopping portals to keep them up to date with the latest shopping trends and best buys. We have big plans and are excited to get started to the opening BETA period.
